EPFL Open Days
14-15 September 2019

**FHKI Group 32 HKATC will attend EPFL Open Days.
All FHKI members are cordially invited to JOIN US!**

The **National Centre of Competence in Research (NCCR) Robotics** is a consortium of robotics laboratories across Switzerland, working on robots for improving the quality of life and to strengthen robotics in Switzerland and worldwide. During the EPFL Open Days, NCCR Robotics consortium will showcase its pioneering technologies in three main areas of robotics: **wearable systems for rehabilitation, rescue robotics (including flying robotics and flyjacket) and educational robotics.**

HKATC Chairman Ir Andrew Young will be the Group Leader of this visit.
